

CHARLES GOODACRE, DDS, MSD

Dr. Goodacre received his DDS degree from Loma Linda University School of Dentistry in 1971. He completed a three-year combined program in Prosthodontics and Dental Materials at Indiana University School of Dentistry and in 1974 earned his MSD degree. He served as Chair of the Department of Prosthodontics at Indiana University and from 1994 to 2013 served as Dean of the Loma Linda University School of Dentistry. He currently teaches in the Advanced Education Program in Prosthodontics at Loma Linda University School of Dentistry and is a Distinguished Professor at that institution. He is a Diplomate of the American Board of Prosthodontics, Past President of the American Board of Prosthodontics, Past President of the American College of Prosthodontists, and Past President of the Academy of Prosthodontics. He currently serves on the Board of Trustees of the Foundation for Oral Rehabilitation (FOR) and is Chair of the FOR Education Council. He has made over 500 invited presentations and published over 200 articles, research abstracts, textbooks, and textbook chapters. In addition, he has developed or helped to develop 17 online CE courses, 11 electronic education programs, and 3 eBooks. Dr. Goodacre has received numerous awards for his distinguished service, excellence in teaching and lifetime achievements.

Clinical Complications with Dental Implants

Instructor: Charles Goodacre, DDS, MSD
Short Course: 10CEs CBDE/8CEs ADA/AGD (Code 690) (EXPIRES 5/24/21)
Format: Video
Delivery: mp4 Download or DVD Via Mail
Course Price: \$485
Register: (866) 611-5599 or www.AmericanSeminar.com

COURSE OBJECTIVE

After completing this course participants will have a better understanding and working knowledge of the following:

Part 1: Comparative Characteristics of All-Ceramic and Metal-Ceramic Crowns

- ◆ Know the causes of surgical complications
- ◆ Understand the effect of a knowledge of anatomy on implant complications
- ◆ Prevent or minimize complications by applying the knowledge gained from this presentation

Part 2: Factors Affecting Implant Loss

- ◆ Know the implant loss rates associated with each type of implant treatment
- ◆ Identify the factors that cause increased implant loss
- ◆ Describe methods of minimizing the incidence of implant loss

Part 3: Soft Tissue and Esthetic Complications with Dental Implants

- ◆ Identify the types of soft tissue complications that occur with dental implants
- ◆ Identify the factors that can prevent or minimize soft tissue complications
- ◆ Describe how to retain interdental papillae as well as mucosal form and position

Part 4: Mechanical Complications with Dental Implants

- ◆ Identify the most common mechanical complications associated with dental implants
- ◆ Understand the factors that create overloading of implants and prostheses
- ◆ Understand the importance of implant placement in minimizing complications
- ◆ Know how to design crowns and prostheses when the implant positions are not ideal

COURSE TOPICS

CCD-01-01: Causes of Surgical Complications
Know the causes of surgical complications.

CCD-01-02: Effect of a Knowledge of Anatomy on Implant Complications
Understand the effect of a knowledge of anatomy on implant complications.

CCD-01-03: Prevent or minimize Complications
Prevent or minimize complications by applying the knowledge gained from this presentation.

CCD-01-04: Implant Loss Rates
Know the implant loss rates associated with each type of implant treatment.

CCD-01-05: Factors that Cause Increased Implant Loss
Identify the factors that cause increased implant loss.

CCD-01-06: Minimizing the Incidence of Implant Loss
Describe methods of minimizing the incidence of implant loss.

CCD-01-07: Soft Tissue Complications
Identify the types of soft tissue complications that occur with dental implants.

CCD-01-08: Factors that Prevent or Minimize Soft Tissue Complications
Identify the factors that can prevent or minimize soft tissue complications.

CCD-01-09: Retain Interdental Papillae
Describe how to retain interdental papillae as well as mucosal form and position.

CCD-01-10: Common Mechanical Complications
Identify the most common mechanical complications associated with dental implants.

CCD-01-11: Factors that Create Overloading of Implants and Prostheses
Understand the factors that create overloading of implants and prostheses.

CCD-01-12: Implant Placement
Understand the importance of implant placement in minimizing complications.

CCD-01-13: Design Crowns and Prostheses with Non-Ideal Positions
Know how to design crowns and prostheses when the impation positions are not ideal.

ADA C.E.R.P.® | Continuing Education Recognition Program

American Seminar Institute is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist Dental Professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

(11/1/2019) to (12/31/2023)

The American Seminar Institute is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by the AGD for Fellowship/Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from (2/1/2017) to (1/31/2021).
Provider ID# 211769
