

CHRONIC CONDITIONS IN YOUNG ADULTS: TRANSITIONING FROM PEDIATRIC TO ADULT CARE

Full Course: 26.75 AMA PRA Category 1 Credits™ for CME / CEU / CPD; (EXPIRES 05/14/22)
Format: Video
Delivery: Interactive Online
Course Price: \$1080
Register: (866) 611-5599 or www.AmericanSeminar.com

COURSE OBJECTIVE

After viewing this program, participants will be better able to:

Provide state-of-the-art care of chronic childhood conditions in adolescent and adult patients:

- Single-system disease, including congenital heart disease and epilepsy
- Multisystem disease, including cystic fibrosis and epilepsy
- Intellectual/developmental disabilities, including Down syndrome and autism

Develop and implement practical strategies to successfully transfer and accept patients with chronic childhood conditions:

- Care coordination and integration
- Supported decision-making
- Practice redesign and team-based care
- Adolescent health and wellness

Better navigate healthcare systems and their impact on transition to adult care:

- Quality improvement
- Reimbursement strategies
- National health policy
- Advocacy

Enhance your approach to patient and family engagement in chronic condition management and help them to achieve health equity:

- Communication skills
- Assessing self-management skills and readiness for transition to adult healthcare settings
- Coping with chronic illness
- Supports for community living

ACGME Competencies:

- This course is designed to meet one or more of the following Accreditation Council for Graduate Medical Education Competencies:
- Patient Care and Procedural Skills
- Medical Knowledge
- Practice-Based Learning and Improvement
