

## Multiple Sclerosis Review

**Price:** Full - \$580 / Short - \$485  
**Register:** (866) 611-5599 or [www.AmericanSeminar.com](http://www.AmericanSeminar.com)  
*\*Special Association accreditation may vary. See website.*

### **Multiple Sclerosis/Parkinson Disease - Nancy L. Sicotte, MD and Bruno Gallo, MD**

Distinguish among the different phases and types of multiple sclerosis (MS); Determine when to initiate or change therapy for patients with MS; Explain the benefits and risks of disease-modifying and nondisease-modifying therapies for MS; Identify risk factors for Parkinson disease (PD); Individualize therapy for patients with PD.

NE 07 - 12

### **Stem-Cell Therapy for Multiple Sclerosis (MS) - Jeffrey A. Cohen, MD**

Explain the characteristics of stem cells; Identify potential stem cell therapies for patients with multiple sclerosis; Weigh the potential benefits and risks associated with stem cell therapies for multiple sclerosis; Compare stem cell therapies with available treatments for multiple sclerosis; Provide patients with information on the current state of stem cell research in patients with multiple sclerosis. QUALIFIES FOR END OF LIFE/PALLIATIVE CARE

NE 07 - 21

### **Amyotrophic Lateral Sclerosis (ALS)/Multiple Sclerosis (MS) - Björn Erik Oskarsson, MD and Robert Fox, MD**

Educate and inform patients, families, and the public about ALS; Use the Red Flag tool to speed the diagnosis of possible ALS; Refer appropriate patients for specialty care in a timely fashion; Evaluate the evidence supporting the use of anti B-cell, T-cell, and interleukin 2 therapies in patients with MS; Compare benefits and side effects of emerging therapies for MS.

NE 07 - 22

### **Updates on Multiple Sclerosis and Epilepsy - Jeffrey A. Cohen, MD and Raymond J. Dingledine, PhD**

Accurately diagnose atypical presentations of MS; Differentiate MS from neuromyelitis optica spectrum disorder; Explain upcoming revisions to current diagnostic criteria for MS; Recognize the role of inflammation in the development of acquired epilepsy; Evaluate the evidence supporting inhibition of cyclooxygenase-2/prostaglandin E2 in treatment of epilepsy.

NE 08 - 21

### **Multiple Sclerosis/Alcohol Abuse - Suzanne Huffman Smith, MD and Katherine A. Julian, MD**

Identify symptoms suggestive of multiple sclerosis (MS); Recognize common physical examination and magnetic resonance imaging findings in patients with MS; Explain the pathophysiology of MS and its progression; Use evidence-based screening strategies for alcohol abuse; Prescribe medications for the treatment of alcohol abuse.

FP 65 - 45
