

NEUROLOGY FOR THE NON-NEUROLOGIST

Full Course: 33 AMA PRA Category 1 Credits™ for CME / CEU / CPD; (EXPIRES 06/30/21)
Format: Video
Delivery: Interactive Online
Course Price: \$885
Register: (866) 611-5599 or www.AmericanSeminar.com

COURSE OBJECTIVE

At the conclusion of this CME activity, the participant will be able to:

- Recognize and name the most common neurological signs and symptoms, for example, fatigue, tremor, dizziness
- Differentiate between common neurological conditions and those conditions that are more serious in order to determine optimal care
- Perform a thorough neurological examination and take a complete history
- Apply the American Academy of Neurology guidelines for the management of common neurological disorders
- Assess relevant treatment options and apply them as appropriate
- Analyze appropriate and cost-effective imaging and laboratory studies and their indications and contraindications when evaluating a patient
- Predict and manage patient expectations regarding prognosis and rehabilitation
- Identify methods, support, and resources for patient self-management for those patients with chronic neurological conditions, for example multiple sclerosis, Parkinson disease
- Identify the social networks of interpersonal connections that influence positive outcomes in post-stroke patients

COURSE TOPICS

APPROACH TO THE PATIENT

Taking a Neurological History; The Mental Status Examination; and The Neurological Examination: Cranial Nerves, Motor, Sensory, Coordination, and Reflexes -

SENSORY COMPLAINTS

Approach to the Patient with Dizziness; Treatment of Dizziness; Approach to the Patient with Spells; Fatigue; Migraine and Other Headache Syndromes; Headache as a Symptom of Systemic Disease; Neck and Arm Pain; Low Back and Leg Pain; Spinal Cord Neurology; and Approach to the Problem of Chronic Pain

EPILEPSY

Epilepsy and Seizures as a Symptom of Systemic Disease

NEURO-OPHTHALMOLOGY

Visual Disturbances and Eye Movement, Lid, and Pupil Abnormalities.

COURSE TOPICS on page 2

COURSE TOPICS

MOVEMENT DISORDERS

Parkinsonism; Tremor; Hypokinetic Movement Disorders (Other than Parkinson Disease); and Hyperkinetic Movement Disorders.

STROKE

Prevention of Stroke; Impact of Social Networks in Stroke; and Treatment of Acute Stroke

CANCER NEUROLOGY

Primary Brain Tumors and Neurological Aspects of Systemic Cancer.

NEUROLOGICAL INFECTIONS

Encephalitis; Meningitis; and HIV Neurology

NEUROMUSCULAR DISORDERS

Neuropathies and Muscle, Motor Neuron Diseases and Neuromuscular Junction Disorders.

MULTIPLE SCLEROSIS AND AUTOIMMUNE DISORDERS

Multiple Sclerosis and Autoimmune Neurology

BEHAVIORAL NEUROLOGY

Evaluation of Cognitive Impairment; Alzheimer Disease; Delirium and Confusion; and Neuropsychiatry.

NEUROIMAGING

Principles of Neuroimaging

BORDERLANDS OF MEDICINE AND NEUROLOGY

Neuro-Rheumatology; The Neurology of Acid-Base Disturbances; Neurocardiology; and Neurohematology

SLEEP DISORDERS

Insomnia; Excessive Sleepiness; and Sleep Problems in Neurological Diseases.

BRAIN INJURY AND TOXINS

Traumatic Brain Injury and Concussion; Metabolic Encephalopathy; Coma and Brain Death; The Neurology of Alcohol; Neurotoxicology: Central Nervous System Toxins, and Neurotoxicology: Peripheral Nervous System Toxins

SPECIAL TOPICS

Neurorehabilitation; Autonomic Neurology; Women's Neurology; Palliative Neurology; Neurology in Global Context; and What My Mistakes Taught Me
